QUICK GUIDE

Water Online Portal

New Request – Change the view / appearance of the map

Change the view / appearance of the map (within the Properties Pill)

To change the view / appearance of the map:

1. At the bottom right of the screen there is a drop down box that defaults to **Street View**
2. By clicking on this you can toggle between **Street View** and **Satellite View**
3. Street View will present you with a traditional map format and Satellite View will present you with an Earth image
